

SHIPYARD PROFILE

Northrop Grumman's Vision

Our vision is to be the most trusted provider of systems and technologies that ensure the security and freedom of our nation and its allies. As the technology leader, we will define the future of defense—from undersea to outer space, and in cyberspace.

I would advise anyone that's looking for a long-term career in shipbuilding that this is a great opportunity. For over 22 years I have been able to provide for a family. I've been independent, and I've never had to go back home to my parents and ask for help.

Ron Wilson
Six Sigma Director

Northrop Grumman Shipbuilding-Gulf Coast

Northrop Grumman Shipbuilding knows that greatness is often the product of people bringing fresh perspectives to the task. Northrop Grumman Shipbuilding is the nation's and the world's preeminent shipbuilder. Our 18,000+ proud employees design, engineer, build, and support virtually every type of ship for the U.S. Navy and Coast Guard, international navies, and a range of commercial maritime customers.

Northrop Grumman Shipbuilding main operations are in Pascagoula, Mississippi, and New Orleans, Louisiana.

Pascagoula, Mississippi

Northrop Grumman Shipbuilding is Mississippi's largest private employer. Since 1975, the company has delivered 82 new, major surface warships to the U.S. Navy, and dozens of other naval ships have since returned for modernization and overhaul. Northrop Grumman is the only U.S. shipyard in recent years to have delivered new-construction surface combatants to international customers.

New Orleans, Louisiana

Located on the banks of the Mississippi River approximately 12 miles upriver from downtown New Orleans, the shipyard is Louisiana's largest manufacturing employer. Among the most versatile shipbuilders in the U.S., this site includes three outfitting docks totaling more than 6,000 linear feet.

If all of that is not enough to feel good about, consider the four-day work weeks, the focus on continuing education, and advancement opportunities that have happily kept so many of us right here for 5, 10, 20 years and more. If you're looking for an environment where your skills will be matched by projects that are both challenging and rewarding, consider a career with Northrop Grumman Shipbuilding.

Employee Benefits

Northrop Grumman Shipbuilding's benefits are designed to be flexible, because the company knows that each of its employees has unique needs. In addition to all the traditional benefits you expect, Northrop Grumman offers a range of exceptional options, including:

- Twelve paid holidays
- Paid vacation
- Medical insurance
- Registered 401(k) savings plan
- Retirement benefits
- Work four 10-hour shifts
- Continuing education
- Tuition assistance
- Two-week holiday break
- Attendance bonuses (only available for craft positions)

U.S. Citizenship is required for most positions.
